## Message from - President FOGSI :

My dear friends and colleagues, I convey my very best wishes to everyone at the UROGYNAEC-2013 on 15<sup>th</sup>, 16<sup>th</sup> & 17<sup>th</sup> November, 2013 at Ahmedabad.

I hope that the efforts by Ahmedabad ObGyn Society and Chairman, Urogynaec committee, Dr. Vineet Mishra, the organising team will translate into a memorable experience for all the participating faculty and delegates.

**“Investment in Knowledge pays the best interest”** Benjamin Franklin

It is my sincere appeal to all at FOGSI to collaborate with members of urogynaec committee. In rural and urban India, we have similar challenges and a lot to learn from each other on the solutions that have worked. Coming together is the beginning of the Mission and we remain together to accomplish our Vision for making a positive difference to Women's Healthcare in this part of the world.

We need to "innovate" and see what works for us. We need to "implement" in novel ways - educating the masses on their right to "prevention and early detection" and empowering frontline health workers to offer care in the community

We need to study the "impact" of preventive healthcare on reducing the burden of many of the morbidities and mortality.

Looking forward for creating many more interactive platforms between FOGSI'ans in future, for the cause of women entering Nulife...

Best wishes and warm regards

- **Dr. Hema Divakar**  
President FOGSI 2013
