

AOGS & FOGSI

FOGSI Satellite Conference

on
21st & 22nd Dec 2013, Saturday & Sunday

at
V. S. Hospital
Conference Hall, 1st Floor, Ahmedabad.

**6 Credit Points
awarded by GMC.**

Dear Colleague,

AOGS invites you to a yet another unique event.

FOGSI Satellite Conference, to be hosted by **AOGS** on 21st & 22nd of December 2013.

The pre lunch session will be telecasting demonstration of surgical procedures on cadaver. It will be relayed through the Satellite all across India. The Cadaveric lab is the first of its kind and is a unique opportunity to learn .The rest of the two days will witness great academic feast ,relayed live from BISAG Studio at Gandhinagar,Gujarat.

Please block your dates for this unique event where we would be able to have live, two way communication with the experts without the need to travel to Ahmedbad.You can join us from your hometown.

Dont miss this opportunity.

Dr. Hema Diwaker
FOGSI - President

**Org.
Chairpersons**

Dr. Mahesh Gupta
AOGS - President

Dr. Nozer Sheriar
FOGSI - Secretary

**Org.
Secretaries**

Dr. Phagun Shah
AOGS - Secretary

FOGSI Co-ordinator : Dr. Atul Munshi

Dr. Krupa Trivedi

Details for Downloading

Channel Name : BISAG 1 & BISAG 2

To receive programme of BISAG

Broadcast

you require a DTH SET.

DTH SET Consists of following equipments :

1. 90CM Dish Antenna
2. Universal LNBF
3. Low Loss RF cable (RG-6)
4. Satellite Receiver with Remote Controller (SATTOP Box)
5. Audio Video Cable
6. TV/Projector/Plasma Display
(All above items are available in the local market)

Procedure to setup DTH system:

- * First install the Dish Antenna and put the LNBF
- * One of the ends of RF cable connects to LNBF and other connects to Satellite Receiver's (SATTOP Box) LNB In port
- * Then connect Audio Video cable from SATTOP Box to TV/Projector/LCD/Plasma
- * Give power supply to TV and SATTOP Box and Switch on both
- * Do AV mode with remote of TV/Projector/LCD/Plasma
- * For projector select input signal with projector's remote

Input following parameters in SATTOP Box with remote control of SATTOP Box

- * Receive Frequency: 11520 MHz to 11530 MHz (One by One)
- * Symbol Rate : 01700 KSPS
- * Polarization : Horizontal
- * FEC : Auto
- * LNB Type: Universal
- * LNB Low Frequency : 9750 MHz
- * LNB High Frequency : 10600 MHz
- * LNB Power: On
- * 22k : OFF
- * Diseque : OFF
- * After the setup all parameters you should see percentage of signal intensity and sign quality.
- * Then set dish antenna toward the direction of INSAT 4CR Satellite (74O EAST)
- * When dish antenna will be set in proper direction, signal intensity and signal quality increase
- * Now set dish antenna where signal intensity and signal quality get maximum
- * Then fix dish antenna where once you get maximum signal intensity and signal quality
- * Then mark with color/marker pen horizontal and vertical position of antenna for future reference.

Contact for technical support Phone 079 -23213081 (BISAG Gandhinagar) or you may call to Mr. Sanjay Vaghasia 99099 45032, Mr. Rajesh Patel 99099 45031, Mr. Riken Darji 99099 45030
