INVITATION

Dear SOGOG Members,

Yet another academic feast from AOGS.

To keep up the image and reputation of the Vibrant society, AOGS is organizing an exclusive Ultrasound Workshop on the Color Doppler by the Eminent National Speakers..

As promise given during SOGOG meeting, we are taking an initiative to conduct a Midterm one day conference on recent subject and wish that this kind of show must go on every year by different society.

We expect that this should be a true interactive session rather than a listening session.

Eagerly waiting to welcome all of you.

Dr. M. C. Patel
Organising Chairperson

Dr. Kiran Desai
Organising Secretary

Think COLOR Think LOGIQ

LOGIQ P3

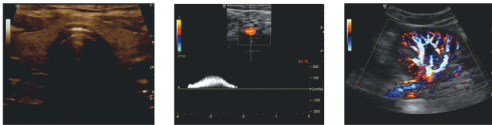

Staying ahead of the curve

The LOGIQ P3 incorporates technologies that deliver deeper penetration, higher resolution and greater color sensitivity for advanced imaging. This results in a more confident diagnosis across a range of clinical applications.

Greater Insights with LOGIQ C5

The LOGIQ C5, an advanced color Doppler ultrasound system from GE Healthcare places the power to do so, in your hands. Bringing superior diagnostic capability into your practice without the need for large investments.
