Invitation

Dear Friends,

“Almost everything that is great has been done by youth”

We are happy to invite you to attend the West Zone YUVA FOGSI-2011 conference, which will be organized by Ahmedabad Obstetrics and Gynecological Society under the aegis of FOGSI on 7-8-9 October, 2011 at Mahatma Mandir, a place of pride for Gujarat and one of the best, centrally air-conditioned convention centers of India. Ours is one of the oldest and one of the biggest Obstetrics and Gynecological societies of India. We are the land of Prayers, Peace and Prosperity.

On 7th October there are two exclusive workshops on “Sonographies and color Doppler in Obstetrics and Gynecology” and “Obstetric surgeries”. Both the workshops will prove useful to everybody in day to day practice. The academic feast to be served during Conference on 8th & 9th October is prepared by the experienced and learned teachers. A great care is been exerted in drafting the same which covers almost all the aspects of Obstetrics and Gynecology.

“Youth is the trustee of prosperity”

“The youth is the hope of our future”

A special care is taken to include our future generation “YUVA” and to provide them a genuine platform to express their views in front of stalwarts and seniors. Quiz for P.G. students, paper and poster presentation, Interactive sessions, Lucky draw and entertainment program with Gala Dinner are a few attractions.

We request you to get enrolled to make this event a grand success. We promise that we will leave no stone unturned to make your stay pleasant and memorable one at Ahmedabad.

We invite you to join us at what we believe will be an outstanding scientific and social event in the City of Mahatma Gandhi.

*It is not just about saving **blood...**
It's about saving lives.*

We at StemCyte believe that the success of Stem Cell technology is achieved only when you invest in research & help transplant physicians to learn advanced transplant technologies. We have not one but many reasons why you should advise your patients to select the best in the business.

- Operating a hybrid model of private (family) as well as public (donor) umbilical cord blood (UCB) stem cell banking with an inventory of 30,000 public units worldwide.
- Supplied over 1400 umbilical cord blood units for transplantation to over 200 transplant centers worldwide including India.
- Proprietary Plasma Depletion Technology.
- Actively involved in R&D programmes for future applications of stem cells.
- Fellowship programmes for transplant physicians in India to learn the protocol for UCB stem cell transplantation.
