## EDITORIAL

Dear Friends,

The flow of knowledge comes from teacher's brain to books and when we study from books for implementation, we do require Guru. Thus for learning, diagnosing, scanning, counseling and last but not least for operating Laparoscopic surgery, minimal invasive surgery and even Radical surgery; at all scientific actions; We need genuine Teachers that is our Guru. So ultimately this humble tribute is for all our teachers on occasion of GURUPURNIMA. Because of them only we are like them healthy and wealthy.

Last month we had 'update on ovarian cancer', where clinical tips for staging laprotomy in CA ovary was narrated. Importance of tumor markers like CA-125, Fertility preservation prior to chemo & radiotherapy was also stated with mind blowing panel discussion on Clinical Cases of CA ovary.

A unique program rather first time on 'coronary heart disease in Menopause' was enjoyed by our members as a benefit of our close friendship with Indian Menopause Society. As we always work from the bottom of our HEARTS, Our hearts do require attention!

We invite you for "Unraveling Mysteries of Endometriosis & PCOS" on 27th July; Sunday morning at hotel NOVOTEL, ISCON cross roads, S. G. Highway.

We are happy to disclose that the GOA Conference will be a great success as enthusiasm of members has persuaded us to say sorry!!! as registration is closed now.

## DR. KAMINIPATEL, VANI IVF CENTRE

**SAYS SURROGACY WILL WORK AS A TOOL TO CHANGE THE WORLD IN A POSITIVE MANNER AND PROMISES TO LEAVE NO STONE UNTURNED.**

VANI IVF CENTRE renders services to the society through surrogacy and is proud to say that we have helped many infertile couple to have their own genetic babies, not only in INDIA but many other countries also.

VANI IVF CENTRE welcomes everyone without any discrimination, analyses their problem and gives them the best available solution. The center counsels the couple about their condition and future perspective of the problem, informs the couple about SURROGACY, all doubts and misconceptions regarding surrogacy are attended with great concern.

The treatment is initiated with the consent of the couple. The surrogate under goes multiple test to prove that she is capable for the conceiving normally and Carrying the baby for 9 months. All basic and advance blood investigations are done, only then the surrogate is Recruited for the couple. The couple is informed about the entire test and the reports done for the surrogate of the couple.

All the documents are signed by the couple and the surrogate with her family, abiding to the rules and regulation of ICMR (Indian Council of Medical Research). Throughout the treatment the couple is informed about the progress of the baby and surrogate.

Finally with GRACE OF GOD and immense dedication from the TEAM of VANI IVF CENTRE the couple is gifted by a baby wrapped in their own genetic configuration.

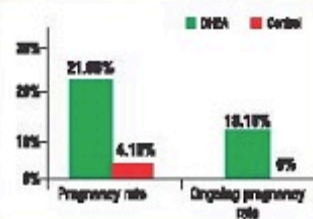

We would be proud to share that as we deal with the Over Seas Couples, we have been covered with the London Tabloid, Japanese News Paper, American News Paper and many other well renowned Magazines.

Increase the spontaneous pregnancies in your patients...

- Positively affects spontaneous pregnancies in women with diminished ovarian function<sup>1</sup>
- Revert deteriorating older oocytes into younger oocytes acting at early stages of follicle maturation<sup>1</sup>
- Significantly increases ovarian function both in poorresponders & women above 40<sup>1</sup>

**"The high percentage of spontaneous pregnancies before starting IVF cycle suggest that DHEA alone can raise fertility in women with poor prognosis for pregnancy, independently of age, probably adjusting defect at earlier stages of folliculogenesis."**
