Editor's Report

Dear friends,

Session Greetings,

After a very successful obstetric conference on 25th & 26th January there is a series of CMEs in pipeline for February & March.

Usually as one approaches the end of the tenure, the enthusiasm level declines, but team AOGS is still working hard with same enthusiasm & zeal as the beginning of the year, as evident from the calendar of events for Feb & March 2014.

Most of you have enjoyed the scientific sessions of the obstetric update conference. Success of the conference was evident from presence of more than 500 delegates & about 54 stalls. We heartily thank the Pharma people for their overwhelming support. Even the P.G. Students participated in large numbers with many paper & poster presentation.

The entertainment programme by Parthiv Gohil & the gala dinner on the eve of Republic day was the feather in the cap for the grand success of the conference. Parthiv Gohil & team rocked.

Once again we thank all those who were instrumental in the success of the conference.

✽ ————— Sincerely Yours in AOGS ————— ✽

Dr. Vinod Arora | Dr. Kiran Desai | Dr. Raj Iyenger | Dr. Dhaval Shah

Program Planner

Calendar of Events for February & March 2014

Date	Time	Day	Programme	Venu
10 th February, 2014	8:30 PM Onwards	Monday	Condolence Meeting	AMA-Jagmohan Parikh Hall

Confusion To Clarity In Antenatal Ultrasound

16th March, 2014. Sunday

Hotel Grand Hyatt, Alpha One Mall Vastrapur, Ahmedabad.
Dr Mahesh Gupta, President **Dr Phagun Shah, Secretary**
AOGS **AOGS**

Coordinators : Dr. Mukesh Savalia, Dr. Uday Patel, Dr. Parth Shah

Chairperson : Dr. Dilip Gadhavi, Dr. Kiran Desai, Dr. Anil Mehta, Dr. Jignesh Deliwala

Subject Experts : Dr. Mahesh Gupta, Dr. Manoj Bharwada

Registration and breakfast 8:30 am to 9:30 am	
1 st trimester dilemmas 9:30 am to 11:00 am	
NT...What is reality?	25 min
1st trimester other than NT USG markers how much use full ?	25 min
Serum markers in 1st trimester how far conclusive ?	25 min
Discussion	15 min
Dilemma of usg findings 11 am to 1 15 pm	
Early diagnosis of CNS lesion.. what is reality?	20 min
Borderline ventriculomegaly	20 min
Dilemma of midline CNS lesion (corpus callosum and posterior fossa)	20 min
Early diagnosis of cardiac anomaly is it possible ?	20 min
Unusual findings always unusual ?	20 min
Hypoplastic nasal bone : what to do ?	20 min
Discussion	15 min
1:15 pm to 2:00 pm lunch	
Confusion in 3 rd trimester and Doppler 2:00 pm to 4:30 pm	
Uterine artery Doppler.. up to what gestational Age ?	20 min
Decreased to absent umbilical artery flow	20 min
MCA changes in 3rd trimester	20 min
How much MRI can help in fetal lesions	20 min
Mild polyamniosis	20 min
Mono chorionic twins is there need of any aggression?	20 min
High tea 4 30 pm	

FACULTY
Prof S Suresh - Mediscan Chennai
Dr Indrani Suresh - Mediscan Chennai
Dr Sujata Jagdeesh - Mediscan Chennai
Dr Chander Lulla - RIA clinic Mumbai
Dr Ajay Valia - Baroda (Imaging Science Committee Chairperson FOGSI)
Dr B I Patel - Ahmedabad
Dr Jayprakash Shah - Ahmedabad
Dr Janak Desai - Ahmedabad
Dr Mayank Chowdhury - Ahmedabad
Dr Hemant Patel - Ahmedabad
Dr. Prashant Acharya - Ahmedabad

Registration Fee : 200/-INR for AOGS members

1000/-INR for non AOGS members

After 10th March, 2014 - 500/-INR

NO SPOT REGISTRATION

PROGRAMME IS SPONSERED BY "MINDRAY MEDICAL INDIA PVT LTD"

MAKERS OF DC-8,DC-7,DCN3,M5,M7,DP50 AND ALL KIND OF HIGH END COLOUR DOPPLER AND 3D 4D USG MACHINE

23rd March, 2014 / Sunday

Hotel Hyatt, Alpha One Mall, Vastrapur.

Time	Programme Details	Faculty
09:00 am to 09:30 am	Registration & Breakfast	
09:30 am to 09:45 am	Recent Article	
09:45 am to 10:10 am	Obesity & Pcos	Dr. Ramesh Goel
10:10 am to 10:35 am	Management of Recurrent UTI	Dr. Abhay Khandekar
10:35 am to 11:00 am	Postmenopausal Hormone Therapy - Current Status	Dr. Phagun Shah
11:00 am to 11:15 am	G. K. Quiz	
11:15 am to 11:40 am	Management of Hyperprolactinemia	Dr. Alka Kripalani
11:40 am to 12:05 pm	Obesity Management - Bariatric surgeon's view point	Dr. Mahendra Narwaria
12:05 pm to 12:30 pm	Hirsutism Cosmetic Management	
12:30 pm to 12:55 pm	Management of Hyperhomocysteinemia - Novel Nutraceuticals	
12:55 pm to 01:20 pm	Teenage Pregnancy	
01:20 pm to 01:30 pm	Lucky Dip	
01:30 Onwards	Lunch	
Program Associate : Zydus Nutriva Makers of Fol - XT, Menoflar

Department of Neonatology

About Department

Department of Neonatology at HCG Multi Specialty Hospital has a dedicated team of skilled and experienced neonatologist & pediatricians. Department is equipped to provide highly specialized neonatal services round the clock (24x7 emergency).

We understand that your baby's illness is a challenging and sometimes frightening experience for you, and we do everything we can to support you and your family while your baby is in our care.

Why Choose Us:

- Level III NICU in NABH accredited hospital.
- The place where other NICUs across the region refer their most seriously ill newborn patients.
- Most experienced neonatologist of Gujarat available at HCG.
- Highly trained and dedicated medical and nursing staff.
- Care provided by leading experts in the diagnosis and treatment of conditions before and after your baby's birth.
- 24x7 pharmacy, laboratory and imaging facilities - X-ray, USG, CT scan, Echo cardiography available in house.

Expertise In:

- | | |
|-----------------------------|-------------------------|
| ♥ Premature born babies | ♥ Birth asphyxia |
| ♥ Low birth weight | ♥ Neurological problems |
| ♥ Feeding Problems | ♥ Infection diseases |
| ♥ Jaundice | ♥ Neonatal surgeries |
| ♥ Respiratory Problems | ♥ Congenital defects |
| ♥ Congenital heart diseases | |

NICU Services Include:

- Advanced NICU care for the premature neonate.
- Ventilator support
- Continuous hemodynamic monitoring
- Total parenteral nutrition and intravenous infusion therapy
- Genetic and metabolic evaluation
- Specialized neonatal transport
- Neonatal care before and after surgery
- Neonatal Follow-up clinic
- NICU support services for families

Dr. Taral D. Mehta

Director - Department of Neonatology

- ♥ M.D. Pediatrics (USA), M.D. Neonatology (USA), F.A.A.P. (USA)
 - ♥ Diplomate of American Board of Pediatrics
 - ♥ Diplomate of American Board of Neonatal & Perinatal Medicine
 - ♥ Fellow of American Academy of Pediatrics
- Mob. 90999 17656

Dr. Vatsal H. Shah

MBBS, DCH, DNB

- ♥ Experience in handling variety of neonatal & pediatric emergencies
 - ♥ Expertise in putting central venous catheters, umbilical catheterization, ventilator management, PICC line insertion, exchange transfusion, transport of sick newborns
- Mob. 90999 18344

NOTE: We are empaneled to treat all patients of ESIC

Comprehensive approach in management of
• Threatened Miscarriage • Recurrent Miscarriage • Infertility

Duphaston^{*}
Hydrogesterone Tablet BP 10mg

- ✓ Derived from **Natural Diosgenin**¹
- ✓ **Orally effective**² unlike micronised progesterone³
- ✓ Has been used in approximately **10 million pregnancies between 1977 and 2005**⁴

¹ Raw et al.
² Schirmer et al. in: Obstetrics 2000, 46(1): 27-31.
³ Lohmann-Rook et al. in: Obstetrics 2000, 46(1): 27-31.
⁴ Coomaraswamy et al. in: Obstetrics 2000, 46(1): 27-31.

Composition: Each scored film coated tablet contains 10 mg of hydrogesterone. **Indications:** Hormone Replacement Therapy. To counteract effects of unopposed estrogen on endometrium for women with disorders due to menopause & with intact uterus. Progesterone deficiencies in dysmenorrhoea, endometriosis, secondary amenorrhoea, irregular cycles, dysfunctional uterine bleeding, pre-menstrual syndrome, threatened and habitual abortion, infertility due to luteal insufficiency. **Dosage and Administration:** Hormone replacement therapy. In combination with continuous oestrogen therapy, 10 mg hydrogesterone daily during 14 consecutive days per cycle of 28 days. In combination with cyclical oestrogen therapy, 10 mg hydrogesterone daily during last 12 - 14 days of oestrogen therapy. If endometrial biopsies or ultrasound would reveal inadequate progestational response, 20 mg hydrogesterone should be prescribed. 2. Dysmenorrhoea: 10 mg twice daily from day 5 to day 25 of cycle. 3. Endometriosis: 10 mg two or three times daily from day 5 to day 25 of cycle or continuously. 4. Premenstrual syndrome: 10 mg twice daily from day 11 to day 25 of cycle. 5. Irregular cycles: 10 mg twice daily from day 11 to day 25 of cycle. 6. Threatened abortion: 40 mg at once, then 10 mg every eight hours until symptoms remit. 7. Habitual abortion: 10 mg twice daily until seventeenth week of pregnancy. 8. Infertility due to luteal insufficiency: 10 mg daily from day 14 to 25 of cycle. Treatment for at least six cycles. Advisable to continue treatment for first few months of pregnancy as described under 'Habitual abortion'. **Contraindications:** Hypersensitivity. Unknown vaginal bleeding, if used to prevent endometrial hyperplasia in women using oestrogen. **Precautions:** Breakthrough bleeding, can be prevented by increasing dosage. **Interactions:** None known. **Pregnancy and lactation:** No evidence that can not be used during pregnancy. Excreted in milk of nursing mothers. Effect on ability to drive and use machines. No effect. Undesirable effects: Breakthrough bleeding, alterations in liver function may occur. **Pharmacodynamics:** orally active progestogen producing complete secretory endometrium in oestrogen primed uterus. **Shelf life:** 3 years. **Storage:** Store in cool and dry place. **Packaging:** Blister strip of aluminium foil and PVC film, of 10 film coated tablets. **Issued on:** Jan 2010
