

Thalassemia Week

4th May 2025 to 11th May 2025

World Thalassemia Day

8th May, 2025

- About 6 Crores people of India are Carriers of Thalassemia... who can potentially give birth to a Thalassemia Major child with grave consequences.
- Let us join hands to detect them and give them an informed choice about selection of a life partner or if already married-an option of 'Pre Natal Diagnosis'.
- A Simple act of having them tested will ensure a **"Thalassemia Free"** Family for them.

Test

CBC

HPLC

Blood Group
